

## Security of Voting Machines

### Scoring

- Majority of voters in the state can use secure voting machines, 1 point
- Majority of voters in the state cannot use secure voting machines, 0 points
- Note: States vary widely in the types of voting machines used for in-person voting. The most secure systems use paper ballots that allow the voter to verify their choices. MAP relied on research and data from [Verified Voting](#) for this map and the information below related to voting machines. States with secure voting machines are defined for our scoring as systems that use hand-marked paper ballots for most voters. States using Ballot Marking Devices (BMDs) for all voters, hybrid BMD/tabulators, or Direct Recording Electronic (DRE) Systems are defined as not secure. “Majority of voters” for our scoring is defined as over 50% of registered voters within a state living in a jurisdiction that uses secure voting machines
- No updates required since October 13, 2021

### Alabama (1)

- Majority of voters can use secure voting machines.

### Alaska (1)

- Majority of voters can use secure voting machines.

### Arizona (1)

- Majority of voters can use secure voting machines.

### Arkansas (0)

- Majority of voters cannot use secure voting machines.

### California (1)

- Majority of voters can use secure voting machines.

### Colorado (1)

- Majority of voters can use secure voting machines.

### Connecticut (1)

- Majority of voters can use secure voting machines.

### Delaware (0)

- Majority of voters cannot use secure voting machines.

D.C. (1)

- Majority of voters can use secure voting machines.

Florida (1)

- Majority of voters can use secure voting machines.

Georgia (0)

- Majority of voters cannot use secure voting machines.

Hawaii (1)

- Majority of voters can use secure voting machines.

Idaho (1)

- Majority of voters can use secure voting machines.

Illinois (1)

- Majority of voters can use secure voting machines.

Indiana (0)

- Majority of voters cannot use secure voting machines.

Iowa (1)

- Majority of voters can use secure voting machines.

Kansas (1)

- Majority of voters can use secure voting machines.

Kentucky (1)

- Majority of voters can use secure voting machines.

Louisiana (0)

- Majority of voters cannot use secure voting machines.

Maine (1)

- Majority of voters can use secure voting machines.

Maryland (1)

- Majority of voters can use secure voting machines.

Massachusetts (1)

- Majority of voters can use secure voting machines.

Michigan (1)

- Majority of voters can use secure voting machines.

Minnesota (1)

- Majority of voters can use secure voting machines.

Mississippi (0)

- Majority of voters cannot use secure voting machines.

Missouri (1)

- Majority of voters can use secure voting machines.

Montana (1)

- Majority of voters can use secure voting machines.

Nebraska (1)

- Majority of voters can use secure voting machines.

Nevada (0)

- Majority of voters cannot use secure voting machines.

New Hampshire (1)

- Majority of voters can use secure voting machines.

New Jersey (0)

- Majority of voters cannot use secure voting machines.

New Mexico (1)

- Majority of voters can use secure voting machines.

New York (1)

- Majority of voters can use secure voting machines.

North Carolina (1)

- Majority of voters can use secure voting machines.

North Dakota (1)

- Majority of voters can use secure voting machines.

Ohio (0)

- Majority of voters cannot use secure voting machines.

Oklahoma (1)

- Majority of voters can use secure voting machines.

Oregon (1)

- Majority of voters can use secure voting machines.

Pennsylvania (1)

- Majority of voters can use secure voting machines.

Rhode Island (1)

- Majority of voters can use secure voting machines.

South Carolina (0)

- Majority of voters cannot use secure voting machines.

South Dakota (1)

- Majority of voters can use secure voting machines.

Tennessee (0)

- Majority of voters cannot use secure voting machines.

Texas (0)

- Majority of voters cannot use secure voting machines.

Utah (1)

- Majority of voters can use secure voting machines.

Vermont (1)

- Majority of voters can use secure voting machines.

Virginia (1)

- Majority of voters can use secure voting machines.
