Background

These laws ban transgender youth from participating in school sports, most frequently in K-12 schools and often in college as well. These laws mean that transgender girls, for example, would not be allowed to participate in sports with other girls. Local schools and state athletic associations already have policies that both protect transgender people and ensure a level playing field for all athletes. In contrast, the policies shown below are blanket bans on transgender people’s participation in sports, and they are both unnecessary and harmful.

<td>Does not specify, but defines “sex” as “the biological, physical condition of being male or female, determined by an individual’s genetics and anatomy at birth.” It also creates a new commission like Utah’s, and that process for eligibility/permission references a student’s birth certificate. The process appears to allow students to play on a team that does not match their birth certificate under certain circumstances, but that can include providing evidence of “the student’s physical characteristics or medical treatments”.</td>
